Make tomorrow...

...different!

Inspiring generations

Inspiration is a powerful thing - especially for young people as they begin to find their own way in the world. So our aim is always to find new and exciting ways to remain at the frontline of innovative play and to inspire all those who visit our playgrounds.

Our understanding about the nature and power of play enables us to create attractive and challenging play environments that children are eager to explore, letting their imaginations lead the way. With our new UniPlay and UniMini ranges, you can make tomorrow different - make it extraordinary.

Springers

**Introducing the new HAGS UniPlay,
UniMini, Springers and Rockers range**

An exhilarating and unique new range that incorporates attractive curves and natural timbers, echoing nature and seamlessly complementing their surroundings - it could only be HAGS! We've also added extra challenges, improved links and unique new components to provide maximum enticing play value.

Children will love the fresh ways they can traverse their play area and delight in brand new elements such as The Globe, The Manet and The Arco. Traditional favourites can still be found, but now they showcase an updated colour scheme and a fresh new look, with the option of a wooden feel from the ground to the highest levels.

UniPlay™

Rockers

UniMini™

Springers

UniPlay

Mountains of research, thought and design go into our unique expandable play system. The result is a range of exciting modern components combined with traditional favourites to offer a vast number of play functions and games within a unique modular system.

This brochure highlights a number of our standard units. All can be customised, adding games or special features to create your ideal play space. Designed to be both eye catching and fun, UniPlay's distinctive look creates an impressive centrepiece to any play area.

UniMini

Our modular system for smaller children comes in a brand new colour scheme for 2015. UniMini creates opportunities for children to play together, learn together, build collaboration skills, role play, and explore the world, letting their imaginations guide them.

With a variety of colours and materials, you can create the perfect play space to suit you. Within this brochure you will find a selection of our standard units; all can be customised and enhanced, with additional games or special features to create your ideal play space.

Rockers

The new HAGS range of rocking play equipment is ideal for children up to 4 years of age. We offer several elegantly designed models in warm colours to appeal to the vivid imaginations of younger children.

Rockers complement themed play and make an attractive and cheerful addition to any play space.

Springers

Springers are a true playground classic. Colourful and fun, they complement larger play areas and allow children to express their imagination in solo play or as part of a larger collaborative game.

New for this year, we are introducing springer see-saws so that up to 8 children can share the bouncy fun together.

Introducing the new HAGS UniPlay, UniMini, Springers and Rockers range

UniMini™

HAGS®

UniPlay™

Springers

UniPlay™

Introducing the New UniPlay

New UniPlay is designed to immediately grab the attention and interest of older children - and keep it! We are introducing 17 new units, with fresh, modern components to delight every child. UniPlay provides healthy exercise and is the perfect way to work off energy. To children it feels like pure excitement and fun.

The revised colour setting, organic shapes and smooth curved lines have a timeless appeal. UniPlay's varied levels of play will challenge children of every ability, offering basic exercise and play, to more challenging activity for the most adventurous kids.

Unique Design

Lofty towers with new roof structures send imaginations soaring. Each tower is an invitation: every elevated part is climbable, and now even the support posts are part of the play experience.

Towers and hubs are now linked together using a more curved design, adding to the experience and providing a new challenge at every step. Meanwhile, the appealing wooden look now extends from the bottom of the unit right the way up to the roof.

New Colour Setting

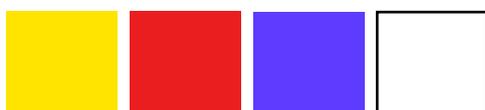

Our new colour scheme is stylish and playful.

Wood

Steel and Plastics

HPL

UniPlay™

Something for everyone!

The modular system and simple construction means that UniPlay can be installed almost anywhere and fit seamlessly with existing and natural surroundings. Working with the natural terrain, you can create unique opportunities for inspiring and exhilarating play solutions. UniPlay creates safe areas for socialising, with materials designed to stay comfortable and cool in any weather.

We offer a wide range of standard ready-made units for every size and budget, each offering dynamic components for a new challenge. Combine components in different ways to create diverse and expansive unique play-scapes that appeal to children's innate sense of adventure. However you express your wishes through UniPlay, you will create an appealing haven for children, encouraging safe play and exercise, with numerous challenges to ensure they never get bored.

Customised Design

The versatile nature of UniPlay allows it to be adapted to almost any setting, whether that's tackling slopes or snaking around natural obstacles. You can adapt the play unit to the natural environment, rather than the other way around.

Of course, this versatility also ensures that you can create the ideal play space for your specific setting and requirements. Units can be extended in the future, allowing you to make additions over 2 to 3 years. Our sales team can advise and offer suggestions on adding budget steps.

Panel Colour Options

Standard UniPlay units are available in four new colour panel settings - bark brown, light green, dark green and red. This palette is pleasing to the eye and a natural fit for organic settings, complementing the surrounding environment.

Green Panels

Bark Brown Panels

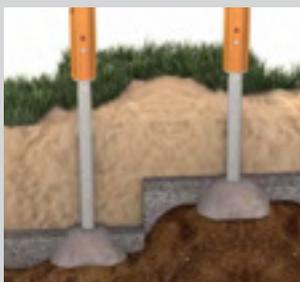

Red Panels

Ground Anchoring

The UniPlay family has an anchoring system that is designed for durability. The patented pole mounting structure lifts the unit about 10cm above the ground to protect all wooden parts against moisture. There are four different ways to anchor UniPlay.

Sunken Foundation **S**

Sunken precast concrete foundation covered with sand.

Loose Fill **BM**

Sunken precast concrete foundation covered with sand, bark or wood chips.

Cast in place **CC**

Long steel piping cast in place and covered with sand, bark or wood chips.

Above ground **OM**

Anchoring above the ground - short pole bolted to concrete base.

Existing UniPlay units and colours still available

As well as our exciting new units and colours for UniPlay all existing units, play features and colours will still be available.

Please see the website for full details of all the options available. For advice on your specific requirements please contact us.

New UniPlay Features

Numerous play activities

HAGS Uniplay encourages a wide variety of play activities. On our website you can find detailed information about how our standard units are equipped.

Most components can be exchanged or added to any standard unit. Talk to your HAGS representative if you would like to make a change or add something – we are always happy to advise!

Arco

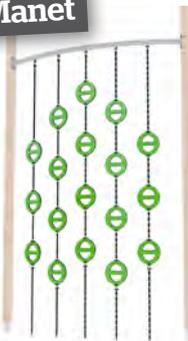

This moulded plastic glider offers a thrilling surprise and is the perfect versatile alternative to a slide. Children can control the speed of their descent using the finger grips along the rim.

Slide

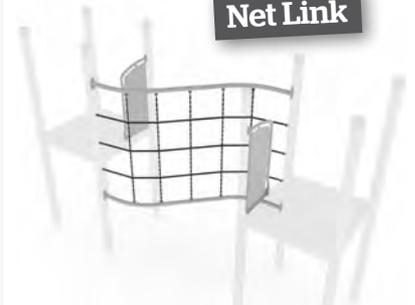

This playground classic appeals to all ages. Our steel slide has a contemporary wavy style for a smooth and exhilarating descent.

The Manet

Five climbing ropes are suspended from a curvy top bar. The ropes move gently from side-to-side for a fun climbing challenge. This component can be a link between towers.

Net Link

Several friends can tackle this traversing climber together. With its s-shaped top bar and gently moving ropes, kids get an age appropriate challenge that builds strength and co-ordination.

Climbing Wall and Post Grips

This tough mountain climbing wall uses HPL for increased durability. The grips provide a sure hold for the climber. Climbing grips can also be added to timber posts.

Net Entrance

Jump on for a thrilling climb! The curvature and flexibility of the rungs adds to the challenge as children make their ascent to the platform.

Trick Ladder

One for the courageous! Durable tubing has been specially designed for a child's hand to grab and hold. Users can also hang onto the ladder from below.

Ball Post

Tackle the Ball Post for a uniquely exciting and tactile climbing experience. It's not an easy climb, but small feet gain traction thanks to the slight flexibility of the polyurethane balls.

Triangular Net

Tackle the net from all angles, testing mental agility and co-ordination - or just hang out on it! Plastic coated chain for comfort and safety. Can be used as a stand alone unit.

The Globe

This unique stepping stone brings something new and different to any play space. Made of 100% recycled plastic and provided with 2 curved hand rails.

Climbing Wall

This wall offers varying difficulty and 360 degrees of fun - climb up, down, sideways or around corners. The ergonomically designed grip provides a strong, comfortable hold for the climber.

Curved Wooden Entrance

An attractive curved wood entrance with double slats for steps offers varying degrees of challenge. Powder coated steel base keeps the timber safely above ground.

Curved Plastic Climbing Wall

Optional game on reverse

This rotational moulded climbing wall has seven grips and appealing curvature. The ergonomically designed grip provides a good hold for the climber. Optional game panel available for the reverse side.

Safir

Enjoy a unique climb or zipping through the air from these rotating rings. A new more attractive replacement for traditional tyres chains. Perfect for social play or just hanging out with friends!

New UniPlay Features

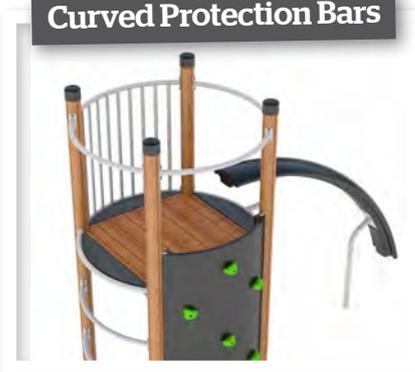

Talk Tubes

Send secret messages across the play space! Talk Tubes work across varied levels, allowing children to "throw their voices" to a friend at the linked tube. Two tubes are required.

Curved Protection Bars

These aesthetically pleasing railings add curves and added security to the units. They are designed to complement our curved climbing walls and balconies.

Balcony

Extends the platform and offers a look out point, adding an attractive curve to the unit. Enjoy the view or talk to friends below. Made from powder coated steel tubes.

Shop

In a child's eyes, this simple counter is transformed into a little shop. The ideal element to spark the imagination and instigate a huge variety of role play.

Ship's Wheel

Encourage role play with this steering wheel. Are you at the tiller of a boat, or driving a car, tractor or train? The only limit is the imagination of the child who stands behind it.

Telescope

More role play fun: children imagine being the captain of a besieged ship or even a pirate - "land ahoy!" A kaleidoscope is built in for added fun and adventure.

HPL Roof - Pointed

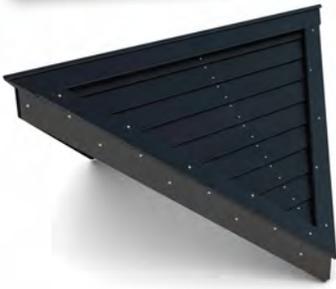

The pointed HPL roof is black on the outside, but has a white interior to create a surprisingly bright area within. Roofs attach to posts via a steel tube with steel plate.

HPL Roof - Sail

The sail HPL roof is black on the outside and white on the inside creating a bright and breezy atmosphere within. Roofs attach to posts via a steel tube with steel plate.

Wooden Roof

Enhance the natural feel of your UniPlay with our 100% wooden roof.

Post Cap

This black plastic cap will seal and protect the top of the post.

Square Deck

Square wooden decks complement the UniPlay design and new colour scheme.

Triangle Deck

Triangular wooden decks complement the UniPlay design and new colour scheme.

Window Panel

Quirky window design aids the imagination and enhances social play. Uses even slats in different sizes and at varying angles.

Bark Brown Panel

Available in three different heights, which can be used to build up climbing walls. Subtle colour complements the UniPlay design. Designed with even slats in different sizes and at varying angles.

Red Panel

Available in three different heights, which can be used to build up climbing walls. Subtle colour complements the UniPlay design. Designed with even slats in different sizes and at varying angles.

Green Panel

Available in three different heights, which can be used to build up climbing walls. Subtle colour complements the UniPlay design. Designed with even slats in different sizes and at varying angles.

UniMini™

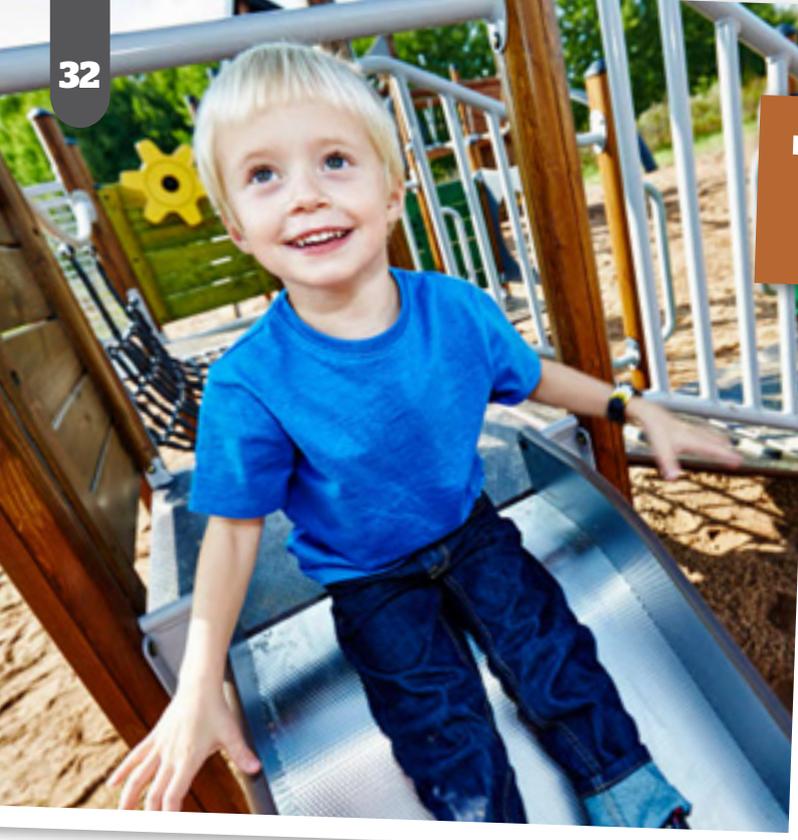

Introducing the new UniMini

UniMini is designed to promote social interaction and development, offer fun challenges, physical exercise, and improve motor and cognitive skills.

Packed with play opportunities to inspire growing minds and offer exercise for growing bodies, the UniMini range is naturally attractive to younger children.

UniMini™

Something unique for young minds!

Just like UniPlay, UniMini complements natural surroundings and can be constructed virtually anywhere. We have a wide range of ready-made standard units, for every scale and budget, always offering fun and challenging components.

Create unique play areas by combining our standard components in different ways. Different variations can increase accessibility and ensure you get the play area that you want.

Unique Design

Packed with play opportunities to inspire growing minds and offer exercise for growing bodies, the UniMini range is naturally attractive to younger children.

The shapes and colour scheme echo the UniPlay range and every combination offers a variety of challenges and enticing elements, ensuring that youngsters never feel that they are missing out on the "big kids' playground". Units can be extended in the future, allowing you to make additions over 2 to 3 years. Our sales team can advise and offer suggestions on adding to the unit in phases.

Customised Design

UniMini play spaces include a variety of fun games and play functions. Most can be exchanged or added to any standard unit.

The versatile nature of UniMini allows it to be adapted to work within virtually any setting, whether it's sloping with uneven ground or looping around obstacles. Your play area will fit around the natural environment, rather than encroaching upon it. Of course, this versatility also ensures that you can create the ideal play space for your specific budget.

Panel Colour Options

Standard UniMini units are available in four new colour panel settings - bark brown, light green, dark green and red. The colour scheme is designed to blend in with natural settings while still remaining eye-catching and attractive to children.

Green Panels

Bark Brown Panels

Red Panels

Ground Anchoring

The UniMini family has an anchoring system that is designed for durability. The patented pole mounting structure lifts the unit about 10cm above the ground to protect all wooden parts against moisture. There are two different ways to anchor UniMini.

Sunken Foundation **S**

Sunken precast concrete foundation covered with sand.

Above ground **OM**

Anchoring above the ground - short pole bolted to concrete base.

Classic UniMini colours still available

As well as our exciting new colour range for UniMini the classic colours that we know and love are still available.

Please see the website for full details of all the colour options available. For advice on matching colour to your specific requirements please contact us.

Rockers

Ready to rock!

Introducing HAGS new rocking play equipment for children up to 4 years of age. Rockers offer the same benefits as playground springers, but give a more gentle ride.

They have been designed especially for toddlers to develop awareness of their bodies movement through space. Choose from 3 designs, all with comfortable builds and eye-catching designs.

The rocking mechanism offers a comfortable back and forth swaying motion, and the playful design ignites the imagination and attracts little eyes.

Rockers are a wonderful introduction to imaginative outdoor play and complement themed games. Installation is simple and speedy - in no time at all your play area will be ready to rock!

Springers

A true playground classic!

Springers have delighted many generations of children. Every item within our new range is beautifully designed and appealing to children of toddler age and above.

HAGS new double sided springers offer an extra sense of security for children aged 2-5 years. These are available in a range of cheery and stylish designs. Our new spring see-saws offer all the fun of a classic springer. With a farm or transport themed design, these are perfect for imaginative play and can hold up to 8 riders at once.

All springers can form an integral part of themed play, and their simple, vivid design encourages imaginative games and story-telling. With the double user option, children can exercise their imaginations together.

A number of HAGS springers offer increased accessibility or additional back support. Double HPL sides ensure that smaller children are safe and well supported during their ride. Installation is quick and easy, with an anchoring system that allows simple maintenance and easy replacement of the product. When the time comes to replace your springer, all parts can be recycled.
